ADLIS/WEIYIN CORPORATION

Build Your Bench

1- We choose a normal bench on the street to change it to a Smart solar bench without changing it, and without the cost of putting a new one.

2- We disassemble the timbers of the bench to place our Adlis Smart FRIX system

ADLIS/WEIYIN CORPORATION

Build Your Bench

1- We choose a normal bench on the street to change it to a Smart solar bench without changing it, and without the cost of putting a new one.

ADLIS/WEIYIN CORPORATION

Build Your Bench

1- We place the FRIX load panels on the bench and fix it as explained in the configuration and assembly document.

2- We do not configure the components, MPPT and batteries at the moment. It will be done at the end of the assembly of all the components

ADLIS/WEIYIN CORPORATION

Build Your Bench

1- We connect the FRIX cargo panels between them with our FRIX tube system.

2- We clean the surface of the frix charging panels before mounting the rest of the Box solar panels

ADLIS/WEIYIN CORPORATION

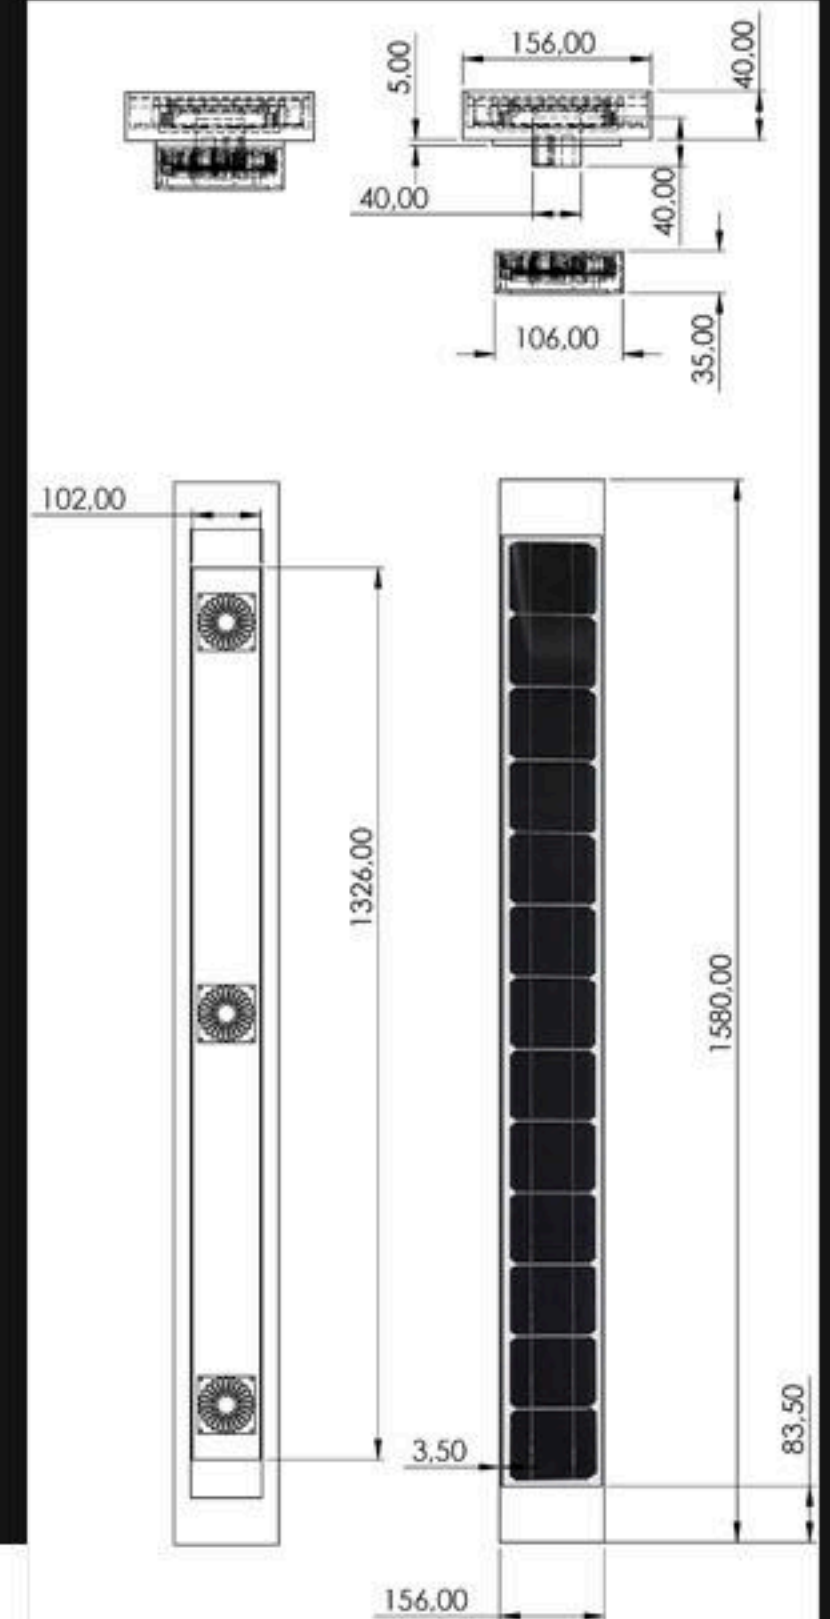

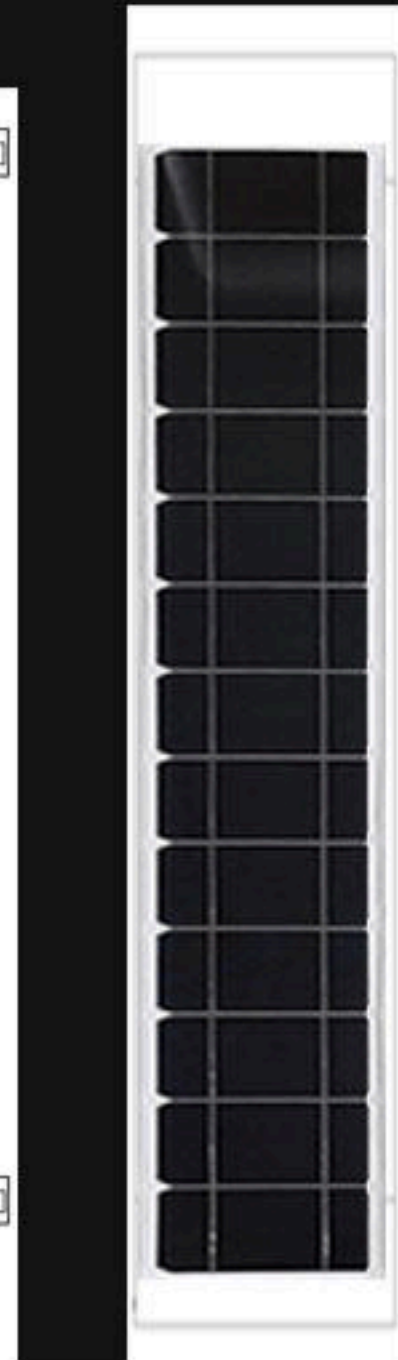

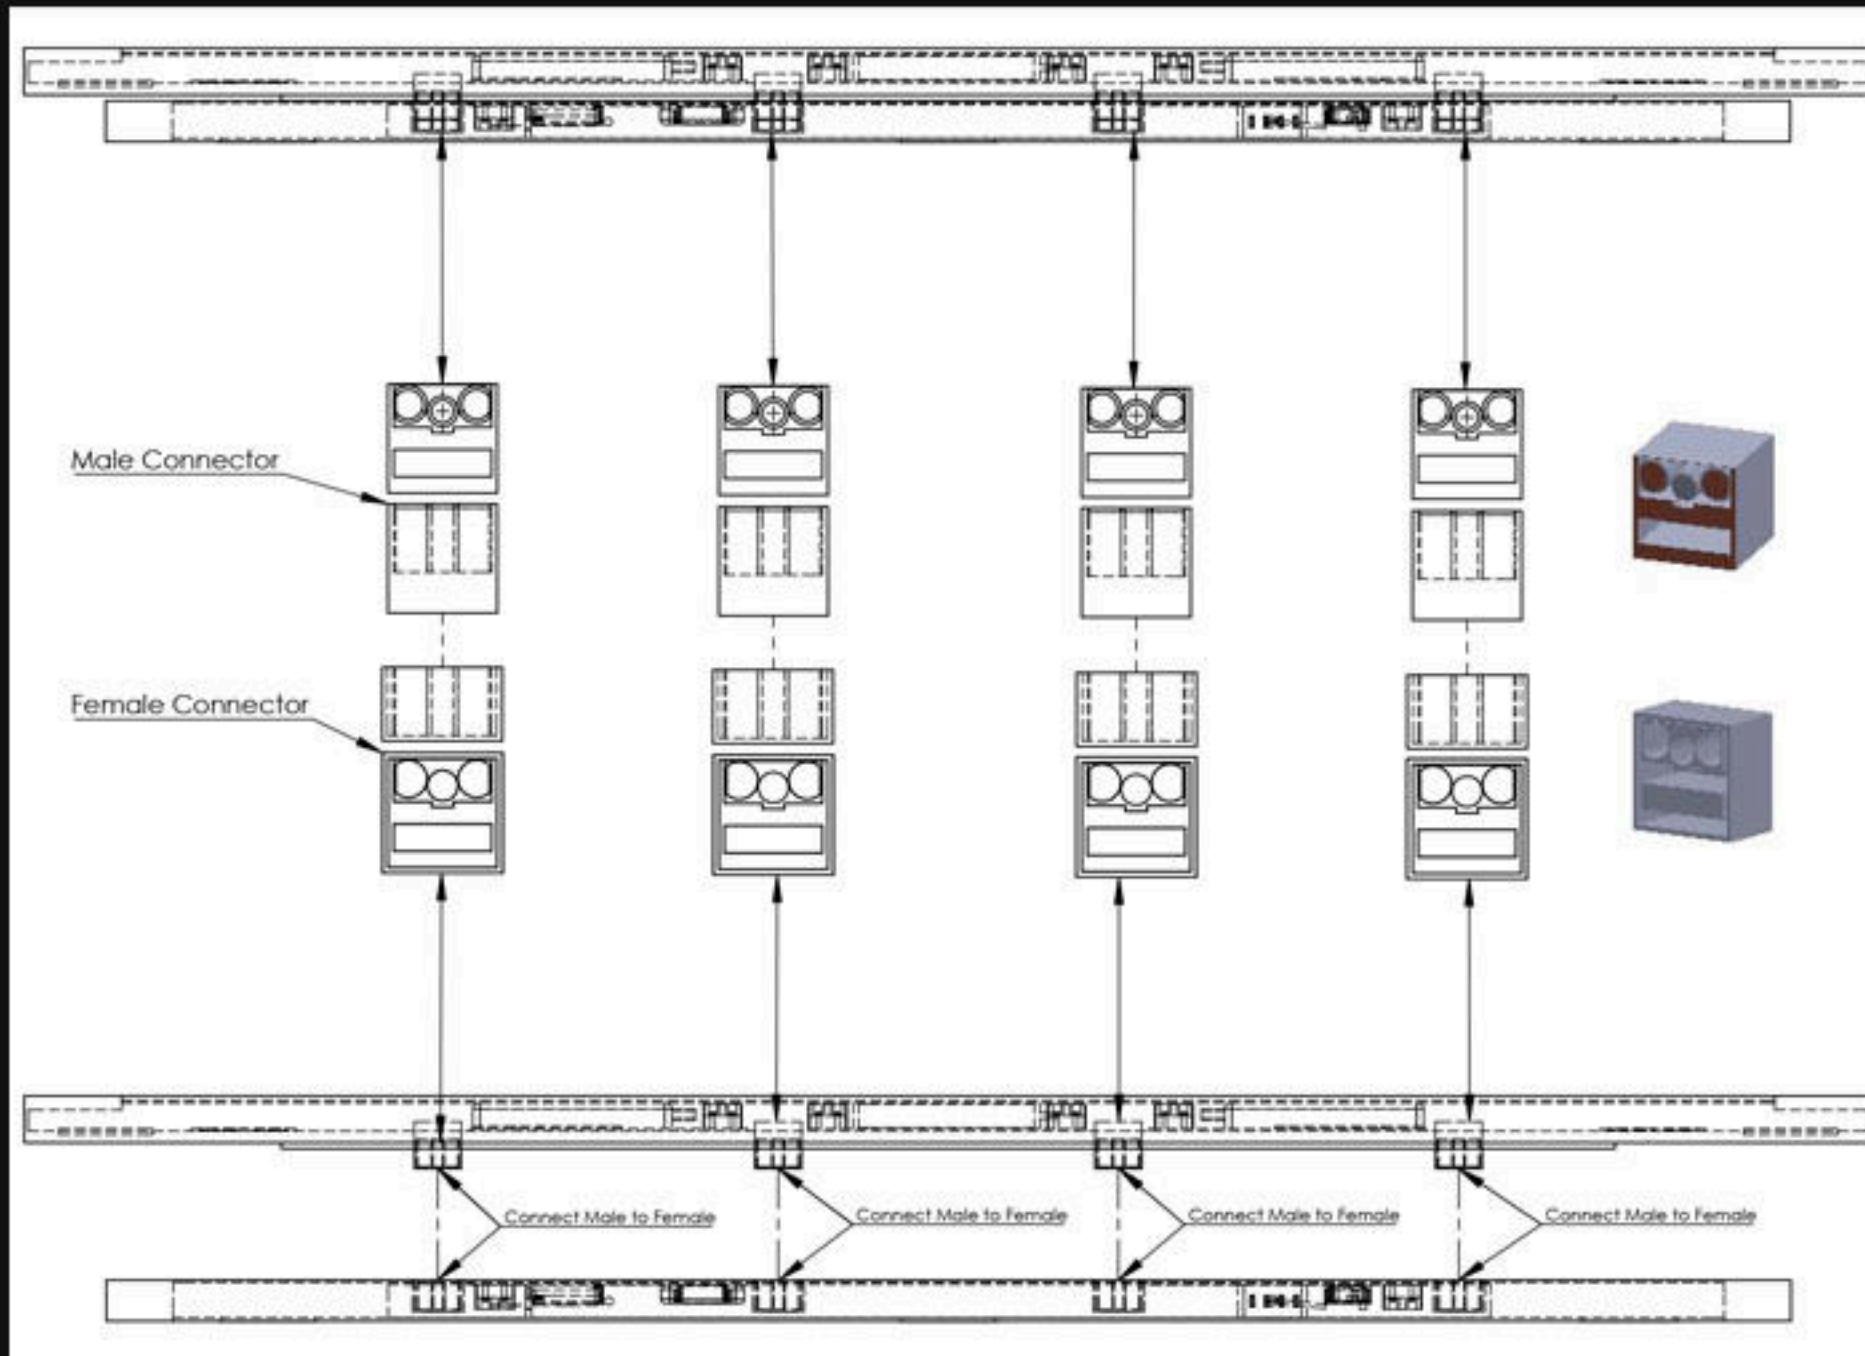

Build Your Bench

1- We place the Smart box solar panel by fitting inside the connection pins of the FRIX charging panel.

2- We configure the charging components, MPPT, battery. We configure the router and test that all components work
