ADLIS SMART

BUSINESS PRESENTATION

www.adlissmart.com

The year 2024 is emerging as a key year for changes in our company.
To keep our company competitive and adapt to market changes, we will explain the plans for 2024 in our presentation.

Innovation and Strategy for manufacture and assembly process

1. Create new factories in 5 specific countries with the necessary **infrastructure for 4 to 16 models each factory**.
Adlis Smart with new Partners/Investors we will develop the 4 factories during 2024.

2. All factories will be created on our "**Manufacture Assembly Process**" plan.
We will send the parts of each product separately and each factory will finish the final process.

3. We will create a space for our new "**Smart City Platform AI OpTimazer/NVIDIA.**"
It will include latest generation computers, Hosting Server, personalized Cloud Data.

Jane Wu

Chief Business Development

In charge of all infrastructure and development in our main factory.
From preparing Invoice, production time, certificate, transportation etc.

Doron Asaraf

Project Manager - Factory Assembly Process

In charge of the development and infrastructure of each new factory under construction.
From 3D design, Cad, infrastructure of each part of the factory, workers, quality control, tools, personalized certificates for each country etc.

About Our Company

Adlis/Weiyin and Adlis smart is a global manufacturer specializing in smart city street furniture, we have 16 different product categories, including solar bench, solar table, charging station, bus shelter, trash bins etc. We work with over 65 official distributors all over the world and supply high quality products and services to them. The type of companies we work with include Microsoft, Volvo, Bank of America, AFCON, Governments, Municipalities etc... all through our distributors. Besides official distributors, we also work with normal clients, after signing our NDA, the clients can choose 10 designs of our models, then we will share our detailed price list and data sheet for marketing.

https://adlissmart.com/FULLCATALOGUE/

Background Of The Company

2015-2019

Adlis smart is a department of the company VPL-GROUP that was created in 2015 with the objective of developing new technology in 3 branches. We are specialized in manufacturing and developing smart benches, smart table, Smart home and smart Container.

2012

Shenzhen Weiyin Technology Co.,ltd was established in the year of 2012. We are specialized in different kinds of solar smart street furniture, including solar benches, solar charging stations, solar bus shelters and solar trash bins etc. We are the first and leading manufacturer in China in solar smart furniture, and our first solar bench was developed in China in 2015.

2019

In 2019 we merged the 2 companies for Adlis / Weiyin Corporation. With the experience of the 2 companies we create a different way of working, of service, and of giving our distributors what they are always looking for, a customer service totally dedicated to them. We work all over the world with more than 65 official distributors and more normal clients and we get that the old clients of each company are interested and sign with us as Distributors.

How We Work

01 ### Official Distributor

Official Distributor: Without exclusivity for the entire duration of the contract (24 months).
For official distributors, special services, and special requirement (Special Contract 2 Years)

02 ### Normal Client

The client who wants to promote our products, sign the NDA and the commercial agreements. Choose 10-15 products from our catalog that he can promote.
Normal customer with sale of our products at FOB Prices with some advantages in representing our products.

03 ### Complet Service
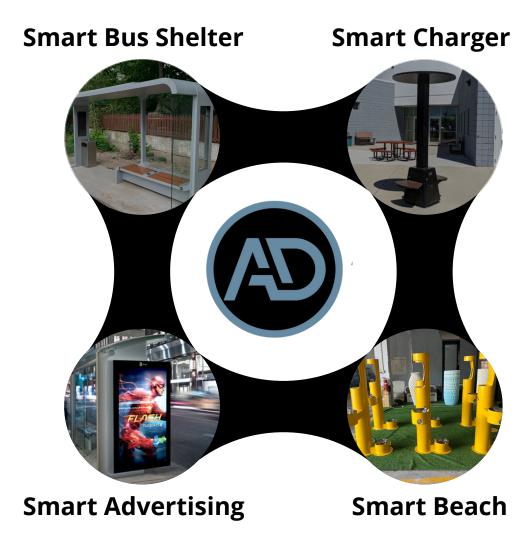

Special service for clients and companies that do not go through our distributors. They buyour products directly from our company.
We offer Complete service: Manufacturing, CIF shipments, receiving the cargo at the customer's location, installation, configuration and total warranty with maintenance service.

Some Models
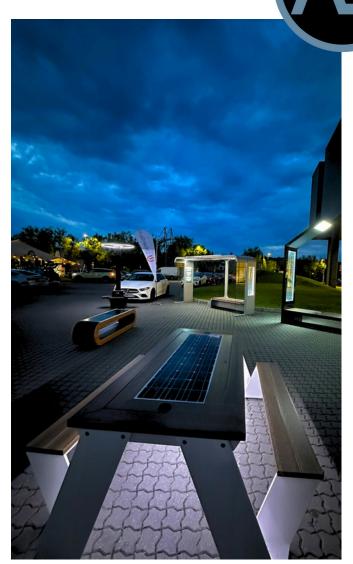

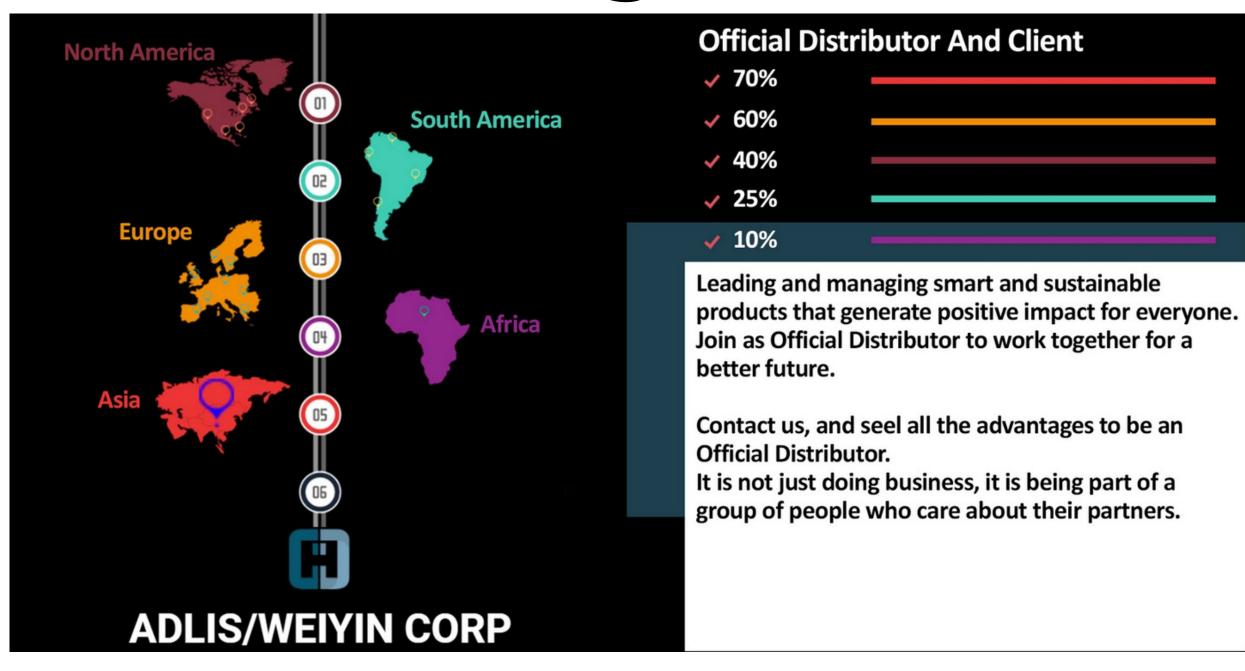

Target Market

Adlis/Weiyin Corp. has 65 Official Distributors worldwide and twice as many customers. Our expectations for 2024 are to sign about 10 to 15 more distributors and invest in 4 new factories in 4 important countries for us.

Sales 2022-2023

During the 2022-2023 year we have signed with 15 new Official distributors in different European countries, Asia and the USA.
We had a sale of 8,300,000 USD worldwide and 1,800,000 USD in China.
It represents a growth of 200% since Adlis Smart invested in the factory in Shenzhen in 2019 and created Adlis/Weiyin Corporation.
Our factory went from having 3000SQM in 2019 to having 20000SQM in 2023.
For 2023 until October we have expenses and investment of 7.98M-USD and sales of 10.1M-USD - 21%.
We estimate by the end of the year with the extra expenses of the EXPO in Dubai and other investments made, a net profit of 16-17%.
But significant growth during and after the Dubai EXPO with signed agreements, contracts with new clients, partnerships, traders and new distributors.

Legend: ■ General Expenses: 3.58M   ■ Expenses + Investment: 4.4M   ■ Sales: 10.1M

INVESTOR STRATEGY - 2024

MANUFACTURE - ASSEMBLY PROCESS

To receive our Complete Business Plan/Financial for Investors contact:
assembly-process@adlissmart.com or **hilik@adlissmart.com**

www.adlissmart.com

Our Vision 2024 (Strategy)

01

Manufacture our products in 5 different countries.
Local manufacturing and personalized certificates in each country include "MADE IN .....".
Local sales and distribution and also to other nearby countries.

02

New personalized designs based on the style and culture of each country.
The new designs will be manufactured first in our main factory and then the Assembly Process will be developed in each new factory.

Our Mission 2024 (Strategy)

01 Create and implement 5 factories in different countries with the capacity of 4 to 16 models in each of the factories.
Develop a personalized sales and marketing plan for each factory.

02 Make the 5 factories leaders in development and sales in each country.
Hire a local company dedicated to developing a marketing campaign to achieve our goal.

www.adlissmart.com

Vision - Mission - Values

The year 2024 is shaping up to be a key year for the business world, marked by changes in the international market.

Many countries are investing to develop plans for local manufacturing. Companies that want to remain competitive and adapt to market changes must design and implement a business strategy that allows them to take advantage of opportunities and face the challenges that arise.

Adlis Smart has prepared a specific strategy for 2 years, its plan is to invest in creating 5 factories together with investors who share our business strategy.

To receive information on our investment plan: assembly-process@adlissmart.com or hilik@adlissmart.com

Strategy Investor - Factory

INVERSOR

FACTORY

Our strategy for investment and investors is based on 2 parts **(Adlis Smart Investment - Investor Partners)**:

- **Adlis Smart Investment:** Our Investment is based on the infrastructure of our main factory, our products for the Showroom, classified personnel to develop and create the factories, Architect CAD design/plans and 3D designs (Virtual Reality included), and much more.

- **Partners/Investors:** We contact investors that we know and trust us, in addition to having more potential investors in our database.

- At the GITEX EXPO in Dubai, many investment companies and investors came to visit us with interest in our products.

- We close agreements and contracts with companies that are dedicated to obtaining investors.

OUR FACTORY: Process Manufacture And Assembly

1 2 3 4 5 6 7 8 9

Artwork

All the necessary documents for the new factories. 3D/AR/VR designs, Artwork for manufacturing and assembly, technical data, configuration, installation.

Testing Report

The testing reports established in all our production "after quality control" will be maintained for the "Assembly Process" of each new factory.

Tecnical/AI Platform Dept.

Our technical department and AI Platform will be in charge and will form the technical team of the new factories. Same with the AI Platform space.

Manufacture

The main factory will manufacture the models as an "Assembly Process" strategy. The components will be sent separately for assembly in the new factories.

Packages

Package all products with special protection and put in 10mm Plywood boxes with reinforcement around.

Architect/Ingeniero Dept.

They are in charge of all the Artwork of our products and prepare specific projects for our clients. They prepare all the plans, 3D/AR/VR of the new factories.

Control Quality

The quality control established in each production "5 days quality control 5 days/24 hours" will be maintained for the "Assembly Process" of each new factory.

Shipment

Loading of products from the port of Shenzhen or Hong Kong to the destination of our new factories.

Design Dept.
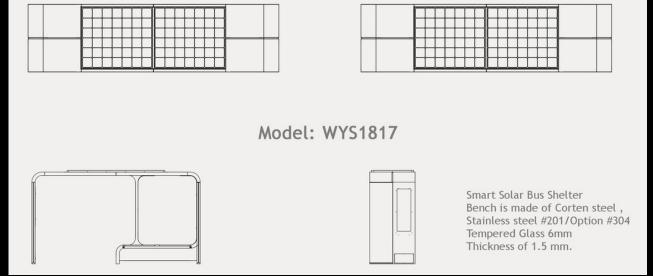

Our department is in charge of all marketing designs, catalogs, data, etc... Our department will prepare everything necessary for the new factories.

Manufacture Principal Factory

Artwork

01
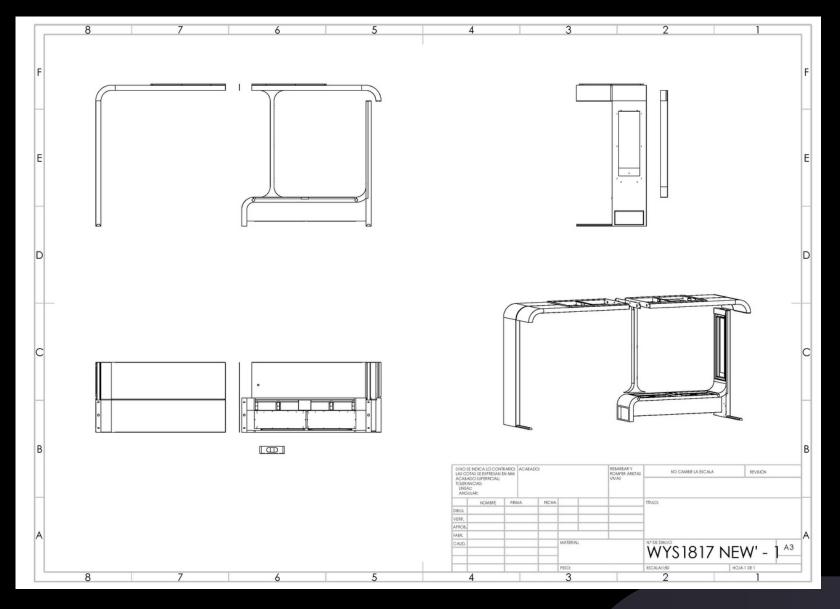

Our main factory will deal with all 3D/AR/VR designs, Artwork for manufacturing and assembly, technical data, configuration, installation. Each file will be prepared with the language and image of each factory, in addition we will prepare the technical office of each new factory with all the necessary software and cloud service to save and share files.

Model: WYS1817

Manufacture New Factory

Control Quality

05

Our quality control established in all our production "5 days of quality control 5 days/24 hours" will be maintained for the "Assembly Process" of each new factory. In addition, we will create a quality control department in each new factory with the same terms established in our main factory with the changes imposed by the standards of each country.

Manufacture New Factory

Testing Report

The testing reports established in all our production "after quality control" will be maintained for the "Assembly Process" of each new factory. The quality control department will be in charge of complying with the same terms established in our main factory with the changes imposed by the standards of each country.

2. The surface of the product has commercial signs such as metal plate and acrylic plate, and electronic accessories are attached with English instruction labels.

Manufacture New Factory

Transport - Installation

**07**

The new factories will be in charge of loading the products, shipping them to the customer anywhere in the country or outside the country. If the client demands it, the new factories will also install the products for the client. In the event that the factory does the installation, Adlis Smart will send experienced workers and a construction engineer to supervise the entire installation.
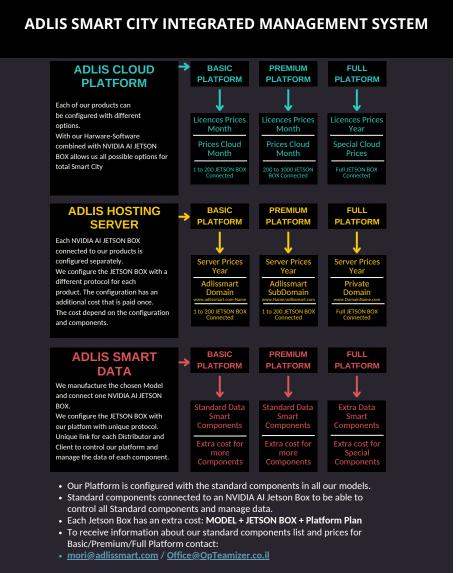

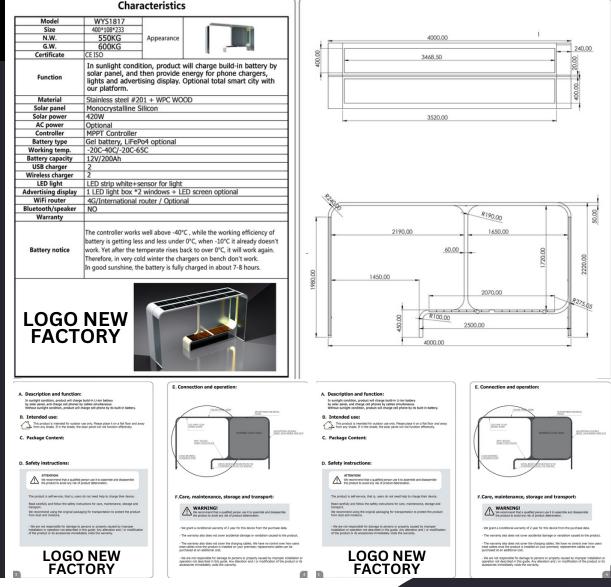

Manufacture New Factory

Tecnical/AI Platform Dept.

Our technical department and AI Platform will be in charge and will form the technical team of the new factories. We will send all the detailed documents for the assembly and Doron Asaraf (Manager Assembly Project) and his team will go to the new factories to train the workers. Mori Asaraf (Manager AI Platform) will design the space for the platform, Cloud Data and computers.
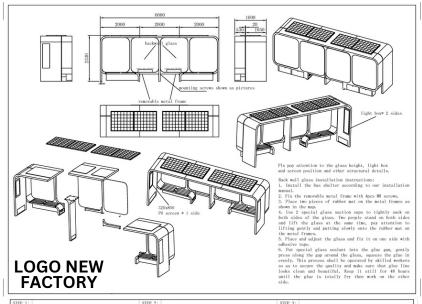

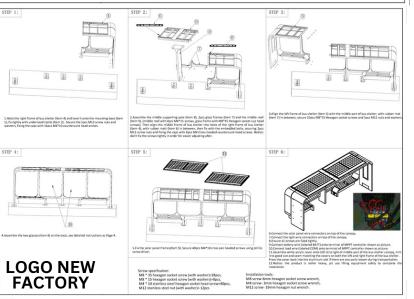

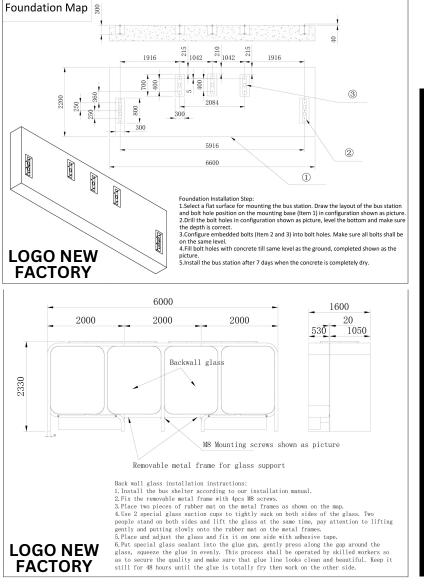

CLOUD PLATFORM   HOSTING SERVER   SMART DATA

Basic Platform: Perfect to start and create Total Smart CIty to offer to your customers. With very competive prices to connect up to 200 products on the platform.

Premium Platform: Our Premium plan focuses on companies that are growing in Smart City and need to offer something more to their customers.

Premium Platform: With a full Platform license, the company becomes part of our technology with full access to the Platform. All the possibilities to your clients with total control.

Characteristics

Model	WYS1817		
Size	400*108*233	Appearance	
N.W.	550KG		
G.W.	600KG		
Certificate	CE ISO		
Function	In sunlight condition, product will charge build-in battery by solar panel, and then provide energy for phone chargers, lights and advertising display. Optional total smart city with our platform.		
Material	Stainless steel #201 + WPC WOOD		
Solar panel	Monocrystalline Silicon		
Solar power	420W		
AC power	Optional		
Controller	MPPT Controller		
Battery type	Gel battery, LiFePo4 optional		
Working temp.	-20C-40C/-20C-65C		
Battery capacity	12V/200Ah		
USB charger	2		
Wireless charger	2		
LED light	LED strip white+sensor for light		
Advertising display	1 LED light box *2 windows + LED screen optional		
WiFi router	4G/International router / Optional		
Bluetooth/speaker	NO		
Warranty			
Battery notice	The controller works well above -40°C , while the working efficiency of battery is getting less and less under 0°C, when -10°C it already doesn't work. Yet after the temperate rises back to over 0°C, it will work again. Therefore, in very cold winter the chargers on bench don't work. In good sunshine, the battery is fully charged in about 7-8 hours.

Manufacture New Factory

Architect/Ingeniero/Design Dept.

09

Our architects will be in charge of designing and preparing all the CAD, 3D plans and permits necessary for each new factory. Our Design department will prepare everything necessary for the new factories, both the catalogs of the products that each new factory will manufacture and any necessary documents.
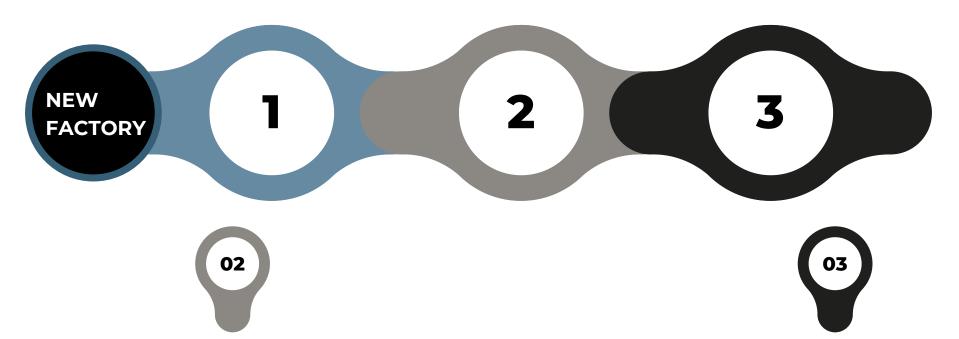

Catalogue design new factory

Service - Installation - Maintenance

NEW FACTORY → 1 → 2 → 3

01

Service
Providing a service totally dedicated to our clients is one of the most important points of our company and the new factories will have to maintain that same policy.
Manufacturing and selling products is part of a service but not the most important one.
Maintaining customer loyalty by offering our customers the best service is the basis of Adlis Smart.

02

Installation
Our company offers different options and the New Factory will maintain the same strategy:
- Official Distributor: **(The distributor does the installation and configuration).**
- Normal customer: **(We do the installation and configuration).**
- Municipality, Institution, Government: **(We do the entire process, manufacturing, foundation foundation, installation, configuration, engineer certifications and more)**

03

Maintenance/Warranty
Our company offers different options and the New Factory will maintain the same strategy:
- Official Distributor: **(The distributor does the installation and configuration).**
- Normal customer: **(We do the installation and configuration).**
- Municipality, Institution, Government: **(We do the entire process, manufacturing, foundation foundation, installation, configuration, engineer certifications and more).**

Manufacture New Factory

01

Service

The service that our company offers to our clients is the most important part. You can't sell a high-quality product without even better service. Maintaining customers is the basis of companies that want to grow, offering a better service than the competition. The new factories will offer the same, we will send our service plan to each new factory.

Providing a service totally dedicated to our clients is one of the most important points of our company and the new factories will have to maintain that same policy.

Customer support 24/7 Answer and resolve any questions or problems. To offer this timing, the new factory will need a specific time.

"Assembly Process" manufacturing of products and models chosen by each new factory, in addition to the sale of all our products in our catalog.
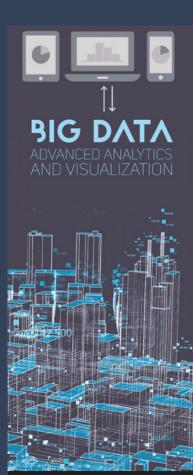

Express Service for maintenance, repairs or others. That service is included in our standard Warranty or will have an extra cost for customers.

Manufacture New Factory

Installation

Our company has different options for installation/configuration. The New Factory will offer exactly the same. We will send our installation/configuration plan. (The distributors are responsible for the installation and configuration).

HOW DOES THE PLATFORM WORK?
Transmission of information and data

We create link for the client, we make the configuration for the client. The customer switches and controls all smart products from the platform.

With the NVIDIA AI Jetson Box installed in each of our products, all components are controlled and data is saved.

We deliver our platform for city management or clients that allows:

Visualize and analyze the sensors and smart components in real time and dynamically.

Access multiple reports that allow defining and analyzing each smart components.

Define and manage alarms to each sensor. Manage in real time the map of each product in the city.

We offer 3 options to choose from:

- **Basic Platform**
- **Premium Platform**
- **Full Platform**

Adlis Smart City AI Opteamizer/NVIDIA PLatform

ADLIS CLOUD PLATFORM   **ADLIS HOSTING SERVER**   **ADLIS SMART DATA**
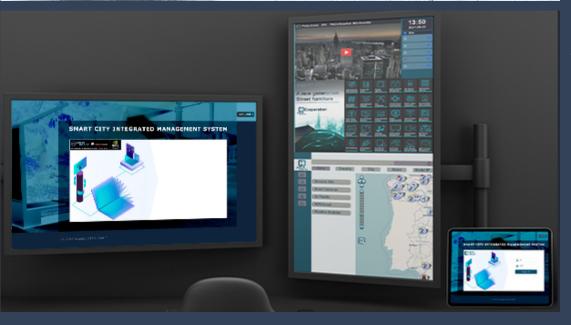

BIG DATA
ADVANCED ANALYTICS
AND VISUALIZATION

https://adlissmart.com/SMARTCITY/

The new factories will offer the installation service for Municipality, Institutions and Government projects.
New factories will receive a complete installation plan for each product manufactured.
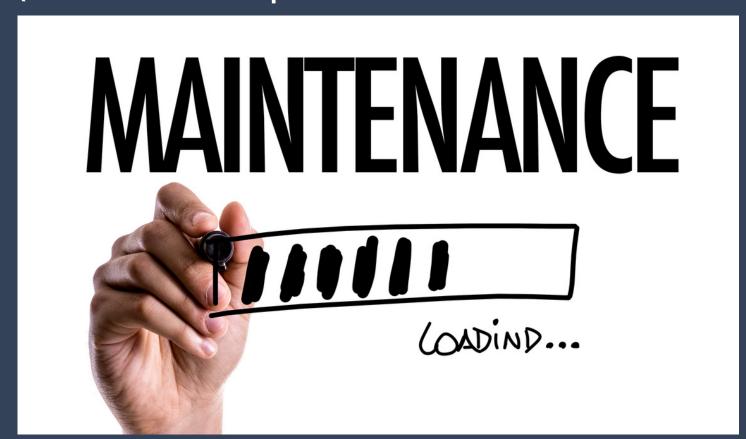

The new factories will have an office for our Smart City Platform with Data Cloud servers. All customers will be offered that service, and each new factory will be in charge of the configuration.

Manufacture New Factory

03

Maintenance/Warranty

The New Factory will meet the same maintenance standards as our main factory. The maintenance service will depend on the warranty and duration. We will send our maintenance plan when the warranty contract ends, with prices and services to offer to each customer. **(Distributors are responsible for maintenance and warranty).**

The maintenance offered will have 2 stages: During the duration of the Warranty with its conditions and services. When the Warranty ends, the new factories will offer a complete service with prices and services for all customers.

Our standard Warranty is included in all products manufactured by our company. The new factories will offer the same Warranty conditions to their customers.

Factory Timeline

2024 - Start (3 Month)

- Hire a company for legal procedures and company creation.
- Hire a comptability and finance company.
- Hire a Producer Manager
- Find and rent a warehouse to build the factory.
- Doron Asaraf, our Manager for Assembly Process, will begin creating the new factory and its development.
- Adlis SMart Design Department will create all the catalogs, documents necessary for the new factory.

2024 - 3 Month

- The comptability and finance company will deliver the financial plan for the new factory.
- Hire all the staff of the new factory.
- Create and set up the Showroom (Adlis Smart will send about 25 products).
- Adlis Smart will send each model that will be manufactured with the Assembly Process system and the team. Doron Asaraf will train and teach the new workers.
- Processing of all National and International certificates with the legal procedures company.
- Create and set up the department for Adlis Smart City AI Platform.
- Launch of the marketing campaign for the new factory (TV, Press, Magazine etc.)

2024 - 2 Month

- Hire the Quality Control Manager.
- Set up the new quality control department and office.
- Delivery of the machines and tools, van and truck for the Assembly Process.
- Organization for storage of all components, spare for Assembly Process.
- Final assembly Process of all models received and quality control + Testing Report for internal evaluation.

2024 - 3 Month

- Evaluation of the 5-days event with all the Managers of the new company together with the Adlis Smart team.
- Organization of new contacts, clients, orders and projects.
- New marketing campaign using the 5-days event, videos, photos, etc... both national and International together with Adlis Smart design department.
- Prepare and organize the first orders and signed projects.
- Manufacturing, Quality control, Testing report, shipping, installation

2024 - 1 Month

- The Ninth month will be dedicated exclusively to the Presentation of the new factory.
- Invitation of potential clients, both private and Municipalities, Institutions, governments, etc.
- Design and creation of the event ''**Open Doors New Factory 2024**'' (Duration: 5 days)
- Sending an invitation to all contacts for an open house event.
- Marketing campaign hiring a specialized company for the event (TV, Press, famous guests, and others)
- 5 days event ''**Open Doors New Factory 2024**'' - **Planning and Timing to be specified with the contracted company.**

2025

Aaron Donadey
CEO/FOUNDER

Aaron Donadey CEO & Founder, created the company in 2015 with the goal of changing the concept of Smart City Street Furniture. With Jane Wu, he developed a strategy working in the International market. Total dedication, he achieved his main goal. Create a better future, together with other people and companies.
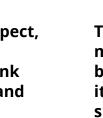

Yehiel "Hilik" Bar
Senior Investment Partner

Hilik Bar is Senior Investment Partner of our entire company. In charge of obtaining and negotiating with new investors, to grow Adlis Smart for a better future.
Working together with Aaron Donadey (CEO of Adlis Smart) for potential investors, they managed to establish Adlis Smart as a leading company.

## Jane Wu
Chief Business Development

Jane Wu is our Senior Director across our company.
She, together with the CEO of Adlis Smart, changed the course, strategy and way of working in the International market 4 years ago.
Dedication and professionalism, she achieved an evolution to grow a company with innovative products.

Doron Asaraf
Project Manager - Factory Assembly Process

Doron Asaraf is our Project Manager - Factory. Doron is in charge of all the parts to develop new factories in other countries. As well as designing its infrastructure, all the technical issues and training new workers. Doron with the technical team will move for a specific time to create and develop the entire new factory.

**To reinvent the future, we must all work together.
We Don't Make The Future, We Make The Future Better.**
Aaron Donadey (CEO)

**In business and in life, what matters is respect, human values and professional ethics.
The qualities you transmits every day, thank you for being who you are with gratitude and admiration.**
Aaron Donadey (CEO)

Thank you Jane for having that strength to make the impossible possible. Create a better future and everyone admires you for it, my respect and gratitude for always supporting me.
Aaron Donadey (CEO)

Respect for your help and support over the years are the pillars of our friendship. My respect to you with gratitude, admiration, affection and consideration.
Aaron Donadey (CEO)
