COMPANY PROFILE

2019-2021

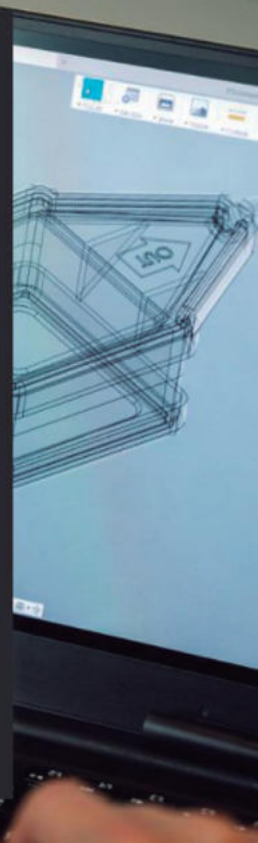

We Don't Make The Future, We Make The Future Better

We Make The Future

Why is adlis/weiyin a better solar and smart product manufacturing company than any other competitor around the world?

2019-2021

<http://www.adlis.co.il/Marketing/>

History

Adlis smart is a department of the company VPL-GROUP that was created in 2015 with the objective of developing new technology in 3 branches. We are specialized in manufacturing and developing smart benches, smart table, Smart home and smart Container.

We develop our own App to control each smart product. In 2019 we closed agreements, partnership and manufacture together the construction of all products with WEIYIN company. While in Israel we have our laboratory for the development of new products, Adlis and WEIYIN manufacture the products together in China. We work in different countries of the world and our products are valued in each of our clients and the countries where we are established.

Shenzhen Weiyin Technology Co.,Ltd was established in the year of 2012. We are specialized in different kinds of solar smart street furniture, including solar benches, solar charging stations, solar bus shelters and solar trash bins etc. We are the first and leading manufacturer in China in solar smart furniture, and our first solar bench was developed in China in 2015, which works on clean solar energy power and can provide free charging services for your phone or tablet, access to Wi-Fi network, bluetooth and ambient light etc. All the time we have been committed to making progress in our product quality and features. Since we started partnership with Adlis smart in 2019, we have made a lot of changes on the material, all electronic components, quality control and now we are offering totally a different level of service and quality from any other Chinese suppliers in solar smart furniture.

Industry Experience

In 2019 we merged the 2 companies for Adlis / Weiyin Corporation. With the experience of the 2 companies we create a different way of working, of service, and of giving our distributors what they are always looking for, a customer service totally dedicated to them. We work all over the world with more than 46 official distributors and more normal clients and we get that the old clients of each company are interested and sign with us as Distributors.

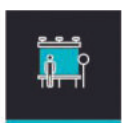

Sels Ltd, EngoPlanet, Afcon, Wolfman, Intel, Microsoft, Apple, ONOMA, SGE, HRS Group, ECOTERRA MICE SERVICE, GSS, STOLB, HB Solteknik, And much more

Production Capacity

Adlis / Weiyin Corp is the largest Israeli-Chinese company capable of manufacturing solar and smart products. Our facilities in Israel (Haifa-Kiryat Yam) and China (Shenzhen) with resources include:

- Department of development and creation of new products
- Department of Design, Artwork, Digital Development, Advertising and Software
- National and International sales department
- Department of Architects, Engineers and specialized technicians
- 4000m2 factory in Israel and laboratory to develop new products
- 15000m2 factory in China (Shenzhen)
- 50 workers in the different departments
- Production and manufacturing capacity of 30 to 70 products per week (These figures vary depending on the product to be manufactured)

No matter how big the job, we have the technology, the experience and the ability to deliver. With a wide range of latest generation technologies, Software, and the appropriate personnel, we manage all the demands and requirements of our clients, guaranteeing a high-technology final product.

Complete Control

Since 2019, Adlis / Weiyin operates in a totally different way. With an organization focused on quality and customer demands. All facilities working together, we can successfully maintain complete control of customer service, design, artwork, quality control, development, manufacturing, delivery and installation, all over the world.

By maintaining this total control, we are confident that your product will get where the customer wants it, how he wants it and when he wants it. That is our guarantee for you.

Quality Control

How does Adlis/Weiyin ensure that i am completely satisfied with the products and services i receive?

2019-2021

<http://www.adlis.co.il/Marketing/>

When doing business, quality and reliability are paramount. Adlis / Weiyin Corporation is considered among our customers and distributors as the extra + in the industry in terms of reliability in manufacturing solar and smart products with a high-performance quality system. We achieve this with a specific organization. See some examples below:

Project teams

Adlis / Weiyin has introduced project and development teams, consisting of an international business chief, an engineer, a marketing and design department and a quality control department. The personal project team will take care of your orders from start to finish, ensuring an efficient workflow to produce the highest quality product. The equipment continually adheres to strict quality controls before being shipped to the customer.

Preferred Supplier Arrangements

The agreements with our suppliers with some components that we use in the manufacture guarantee that our clients receive materials and services of the highest quality and the best value that the market has to offer.

Digital management software

Our software for Design, Artwork, Manufacturing, Cloud and other programs, electronically tracks and monitors each individual order, from the various stages of production to delivery and installation, ensuring that everything flows according to plan.

Guaranteed deliverability

We know that your order must arrive on time and our reputation is built on that promise. We are so confident in our proven track record that we are a company that guarantees it will be ready on time.

Management of all our products and new products

Adlis / Weiyin has a fully integrated management system for all its products and new products, which guarantees a quick response, with all the wide range of materials that the customer may require. We will also present a new cloud / B2B / APP / Dashboard / E-Panel system customized by each distributor with a server / Hosting / VPS dedicated exclusively to our clients, which will provide fast and economical access to all our distributors.

Quality guarantee

Adlis/Weiyin Corporation, ensures that the manufactured products comply with the relevant safety standards and technical requirements and that the products can display all functions under normal conditions of use and maintenance. The company will provide users with a free warranty service of 2 year or more (excluding consumables, see the attached table for specific details). Our customer service outperforms many other competitors. With express delivery of components, personnel of the company 20 hours a day for any solution in the guarantee of our products.

Quality guarantee

At Adlis/Weiyin Corporation we are constantly looking for feedback on ways to improve our processes. Distributors and customers are regularly asked with forms or surveys to ensure that they are completely satisfied with our product and service offerings.

Technology Benefits

How is it possible that Adlis / Weiyin can offer me more competitive prices on its products, state-of-the-art technological components, shorter lead times, parts shipments, Technical data sheet, Technical Installation, Special Artwork, and special services?

2019-2021

<http://www.adlis.co.il/Marketing/>

Due to our research and development department, and our exclusive relationships with our suppliers, Adlis / Weiyin offers high-tech and eco-friendly products at very competitive prices, with all the additional benefits of new technology. These benefits include:

Shorter delivery times

With unprecedented high production speeds and quality control, and without time-consuming error setups, we can complete your products sooner rather than later.

Parts shipments

It allows you the option of receiving your products and components (Spare) in batches to suit your needs.

Lowest price for distributors

Distributors are the most important part of Adlis / Weiyin Corporation. For us they are part of our corporation, we take care of your demands and orders to the last detail. We offer cheaper prices to our distributors than to our normal customers so that they are always competitive. It is one of our most defined strategy to be able to support 100% of the distributors.

Samples

When signing the contract as distributors, you are asked to buy some samples to promote, get to know the product, learn the technologies, and use those samples for a specific marketing campaign. We fully support every marketing campaign, send all custom file types, technical data sheet, technical data installation and much more. Also the samples are offered at a special price to distributors. Just choose 5 samples, and we'll do the rest.

Management of all our products and new products

Adlis / Weiyin has a fully integrated management system for all its products and new products, which guarantees a quick response, with all the wide range of materials that the customer may require. We will also present a new cloud / B2B / APP / Daeshboard / E-Panel system customized by each distributor with a server / Housting / VPS dedicated exclusively to our clients, which will provide fast and economical access to all our distributors.

Variable artwork

In each order, Adlis / Weiyin creates variable Artwork that is sent to the distributor for final approval. All changes requested by the distributor during the artwork will be made quickly and efficiently. The distributor can change his artwork to target different markets and customers. This service is only for our distributors, normal customers receive a Standard artwork.

Folders and Documents delivered

Such materials will include, among others, the following:

- High resolution photos and videos with the Adlis / Weiyin logo.
- Technical specifications of all the Products purchased.
- Technical characteristics of all the Products purchased.
- Installation and Assembly of all the Products purchased.
- Live class of the Application designated by Adlis, including any update of the same.
- Delivery of CE, IP, ISO certificates of all solar smart furniture.
- Delivery of necessary certificates for each components (Sensor, USB, Wireless, light, fan, MPPT, Solar Panel etc...).
- Personalized plate for the dealer with the company data placed on each product
- Quality Control Report on the manufacturing process and quality control tests to finish the manufacturing

Official Distributor

Why does Aldis / Weiyin take such important steps to build long-term, mutually beneficial relationships with their customers, but especially with their distributors?

2019-2021

<http://www.adlis.co.il/Marketing/>

At Adlis / Weiyin we strive to develop long-term and mutually beneficial relationships with our clients. But above all with our official distributors.

Specific relationships

We do not pretend to be "everything to all people", or "best at everything". Our policy with our distributors is to develop much more than just business. We seek long-term and mutually beneficial companies that seek to be part of a united group of companies that work in a specific way and are interested in our products and services.

We understand your business

We know that every company is different and therefore has unique needs when it comes to products. Our international chief business, commercial directors and concepts department work closely with our distributors to understand the dynamics of your company and develop the right solution to meet your needs.

Points of difference

Our policy and approach with our distributors is the most important thing to us. Our ability to do what others cannot, and our experience in providing solutions to problems beyond the ability of other companies, are established points of difference and advantages that Adlis / Weiyin Corporation offers to all of its distributors. A performance and way of working so constant that makes us the company of choice for many of the companies that sign with us as Official distributor. Some examples include:

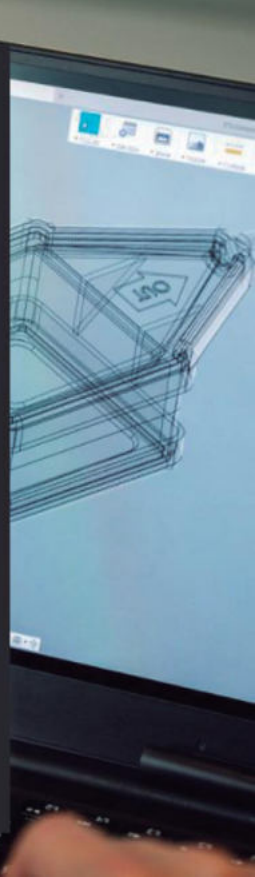

- Our distributor in Greece has a contract with the government of Cyprus for the manufacture, installation of a quantity of Smart Bus Shelter and Smart toilet. We manufacture 1 sample of each product and send an Engineer and Technical Director to Cyprus to support and help our distributors with everything they need during the placement of those samples. The difference of being present together with our distributor gives a guarantee of service and professionalism to your client that other companies that manufacture and sell do not offer.
- Our USA distributor installed products manufactured by Adlis / Weiyin in Los Angeles. During the transfer of the products, from the port to the place of placement, some components were damaged, the distributor contacted us and we sent the damaged components in Express, the distributor's client was surprised by the speed of response.
- Our distributor works on an opening bidding with the government of California, US, when another US client contacts us for the same project, we introduce this client to our distributor and help them work together and give all support from our side, so that we three parties work together happily and closely.

Innovation

How does Aldis/Weiyin keep redefining the playing field of new technology?

2019-2021

<http://www.adlis.co.il/Marketing/>

At Adlis / Weiyin Corporation we know that to continue offering the best to our distributors and customers you continually need more, better and more value than the competition. How do we do this?

Investigation and development

Our R&D team continuously develops new products, new ideas, new APPs, we study the new technology that is created for the future, so we can offer innovative products and services of the highest quality at competitive prices in the market.

Purchasing power

The existing work volumes of our distributors allow us to develop new products and technology, always at the most beneficial prices for our distributors and customers. These new products and technology are shared directly with our distributors.

State of the art equipment

We continually seek new products to develop and manufacture to give our distributors competitive advantages. For example, Adlis / Weiyin will soon launch new products and technology for 2021. Only our distributors will receive the information, prices and benefits. And later it will be received by customers who are not distributors.

Special products

In 2020, Adlis / Weiyin implemented a special product exclusivity service. With Direct product, Adlis / Weiyin offers distributors the possibility to have their own design and exclusive product:

- Such designs cannot be sold to another client and will be entirely exclusive to the distributor and Adlis/Weiyin
- If a client contacts Adlis / Weiyin to request that model, only the distributor to whom the Model belongs will have the power to decide whether to sell it to another client. Even Adlis/Weiyin will not be able to make that decision without the prior agreement of the distributor.
- Adlis/Weiyin will send this new model to all its customers and distributors in different parts of the world. promote and invest in marketing to make known the product created exclusively for the distribution.
- A document will be delivered to the distributor as the model belongs to him for a period of 2 years with said rights (possibility of annual renewal at the request of the distributor).
- The distributor will receive a special plate as a manufacturer along with Adlis / Weiyin.

Concept Consultants

At Adlis / Weiyin we realize that when a company comes to us they are not simply looking for a different product, they are looking for a business relationship solution to build trust, adequate services and then sales. That is why we have put at your disposal a team with Concepts, with experience in Marketing, Visual Merchandising and Design, to advise our future distributors and clients. Our team will work closely with the distributors to understand the specific needs of your company and advise you on the most suitable products and innovative solutions to achieve the results you need.

That Something Extra

What are these exclusive benefits that I can get by signing as a distributor agreement with Adlis / Weiyin instead of another company?

2019-2021

<http://www.adlis.co.il/Marketing/>

Something Extra

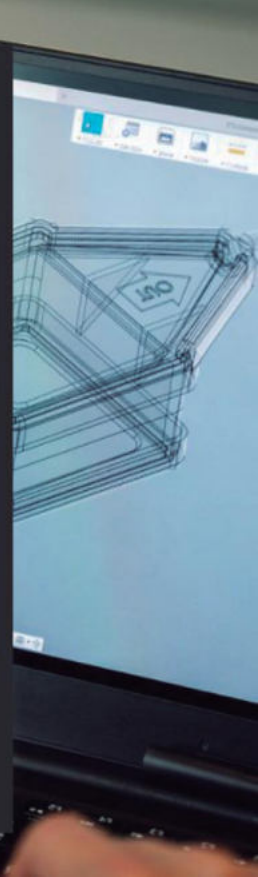

At Adlis / Weiyin we believe in showing our distributors and customers how much we appreciate our business relationship. That is why we are creating our Something Extra program to strengthen each distributor and their development with our products.

- App Adlis smart at the end of February with all the functions to manage our products from the smart phone
- Daeshboard Adlis Smart to be able to manage and control all the products placed on the streets from a computer
- Explanation and courses to do more business with the App and daeshboard
- Web B2b for online sale of each of our products and their components
- Window Server to each distributor
- Online marketing business and through the APP for advertising in our products
